STAT 485/685: Fall 2017

Assignment 2

The data sets from the text may be imported into R using the following code

```
install.packages("TSA")
library(TSA)
#
# replace larain in the following by the data set you want
#
data(larain)
```

That code will mean `larain` is a time series you can refer to by name.

1. From the text Question 3.5 on page 51.

2. From the text Question 3.8 on page 52.

3. From the text Question 3.14 on page 53.

4. From the text Question 3.2 on page 50.

5. From the text Question 3.3 on page 51.
